index 2002

Subject

14–19: extending opportunities, raising standards, green paper, 58C, 59C, 84, 114C

Acid neutralising capacity, 104
Acid rain, effect on UK ecosystem, 101
Acid–base chemistry, 21, 40
A-level chemistry, transition from GCSE double award science, 127, 150L, 163L
A-level topics, difficulty of, 76
A-levels, chemistry degree requirements, 31C
Anaesthetics, 131
Analytical chemistry, detecting pollutants, 157, 164
Anthrax, soundbite, 10C
Applied science, vocational GCSE, 33C
As if by chance, 65C, 146C
ASE, Liverpool, 32C
AS-level chemistry curriculum, 11L, 38L
AS-level chemistry, students' issues, 127
Aspirin, microwave synthesis of, 135
Atmospheric chemistry, 54, 101
Azo dyes, antibacterial agents, 73

Biofuels, 117C, 160
Biomimetic materials, 15
Biotechnology, fermentation, 160
Book reviews
  A-level, chemistry, 55, 82, 138, 166
  AS-level, chemistry, 55, 138
  Analytical science, general, 139
  Chemical research, general, 27
  Chemistry revision guide, AS-level, 27, 82
  Communicating science, general, 83
  Environmental chemistry, A-level, 26
  GCSE, chemistry, 26, 111
  Green chemistry, 55, 138
  Group Theory, undergraduate, 139
  History of chemistry, general, 111
  Inorganic chemistry, undergraduate, 139, 167
  Mathematics, 26
  Medicinal chemistry, undergraduate, 111
  Molecular structure, undergraduate, 166
  Organic chemistry, undergraduate, 27, 82
  Pharmaceutical chemistry, general, 83
  Philosophy of chemistry, general, 27
  Polymer science, undergraduate, 55
  Quantum mechanics, undergraduate, 166
  Science for public understanding, AS-level, 26
  Transition metal chemistry, undergraduate, 139

Carbon dioxide, clean solvent, 41
Carbon dioxide, ocean burial of, 155
Carbon fibres, 46
Catalyst, effect on rate of reaction, 94, 150L
Celsius, converting to Kelvin, 122L
Centre of Excellence for Science Teaching, 60C
CFCs, anaesthetics, 131
CFCs, detection of, 158
Chemical change, concept of, 39L, 122L
Chemical concepts, 36C, 39L, 91C, 122L
Chemical literacy, 12
Chemical reactions, modelling of, 110
Chemistry in space, teaching spectroscopy, 152
Chemistry demonstrations, 40, 94, 123, 151
Chemistry on TV, OU, 23
Chemistry teachers, styles of, 28
Chemistry trails, 14, 64C, 119C
Chemistry Week, 4C
Chemlingo, 90C
Chirality, Nobel prize, 8C
Chocolate, crystal structure of, 54
Chromium oxide, microwave preparation of, 135
Cipro, soundbite, 10C
Clathrates, 156
Closed system chemical reactions, students' misconceptions, 36C
Cocaine, soundbite, 118C
Combinatorial chemistry, 50
Communicating science, OUTV, 23
Composition of air, chemistry trail, 14
Coordinate bond, teaching aid, 11L
Copper smelting, application of Mössbauer spectroscopy, 99
Core charge, concept for post-16 teaching, 56
Corn oil, renewable resource, 129
Curriculum 2000, 11L, 38L

DDT, detection of, 158
Discovery of diborane, 65C
Distillates, chemical education, 25, 81, 137
Distillates, chemical research, 54, 110, 164
DNA fingerprinting, 144C

Ebonite, experiment for synthesis of, 20
Ecological chemistry, 95
Electrochemistry, students' learning of, 81
Electrolysis, value of practical work, 137
Electron capture detector, 157
Electronic configuration, H and He, 39L
Energy, Parliamentary Links Day theme, 117C
Environmental chemistry, 101, 124, 129
Enzyme inhibitors, design of, 110
Ethanol, biofuel, 160
Ether synthesis, 48
Eurobachelor degree, 142

Fatty-acids, effect on oil properties, 129
Fermentation, industrial processes, 160
Fingerprints, methods of detection, 105
Fireworks, soundbite, 145
Flaws in exam questions, 11L
Fluorescence anisotropy, 164
Forensic chemistry, 105
Formative assessment, characteristics of, 25
Foundation degree, chemical technology, 88C
Fuel cells, 90C, 117C
Funding for science and research, 3C, 86C, 114C, 115C.

GCSE double award science, transition to A-level chemistry, 127, 150L, 163L
Gerhard Domagk, 73
Glass, supercooled liquid, 38L
Glucosinolates, role in butterflies, 96
Glycosides, role in butterflies, 96
Green chemistry, 32C, 41, 130, 135, 160

Hall, Chris, Salters' Chemistry Teacher, 3C
Halothane, 131
Health and safety, science practicals, 32C, 88C
HEFCE, RAE results and funding, 30C
History of chemistry, electron capture detector, 157
History of chemistry, halothane, 131
History of chemistry, metargon, 140
History of chemistry, Mössbauer spectroscopy, 97
History of chemistry, organic reaction mechanisms, 47
History of chemistry, plastics, 18
History of chemistry, sulphonamide antibiotics, 72
History of chemistry, victorium, 168
Hydrogen peroxide reaction, demonstration, 94
Hydrogen, fuel cells, 90C, 117C

ICT in science teaching, 25
Ideal gas equation, teaching mathematics, 79
Ideas and evidence resources, writing of, 137
Infochem
  Aluminium chemistry, no 76
  Analytical techniques, no 75
  Angiogenesis, no 78
  Biological warfare, no 73
  Chemical warfare, no 73
  Cosmetic chemistry, no 76
  Fast reactions, no 77
  Green chemistry, no 74, no 77
  HIF protein, no 78
  Microwave chemistry, no 77
  Solvent-free reactions, no 74
  Water fluoridation, no 75
  Water treatment, no 75
Inositol pathway, 69
Inspire, postdocs working in schools, 114C
Intermolecular forces, teaching of, 123
International Baccalaureate, 84
Interstellar chemical species, 154

Jeffreys, Sir Alec, 144C
Jones, Graeme, RSC award winner, 7C

Key Stage 4 science, review of, 2C, 12, 114C
Knowles, William, Nobel prizewinner, 8C

Lab-on-a-chip technology, 110
Lead compounds, chemistry trail, 119C
Lead, chemistry trail, 64C
Leicester University, National Historic Chemical Landmark award winner, 144C
Linear regression, 39L, 93L, 93L
Lovelock, James, 157

Main Group chemistry, 69
Marine chemistry, $CaCO_3$–CO_2 system, 155
Materials chemistry, 15, 45
Mathematics, students' skills, 67L, 79
MChem award, review of, 115C
Metargon, 140
Methamphetamine, soundbite, 89C
Mg/Cu(II) oxide reaction, demonstration of, 151
Microwave chemistry, 134
Möbius crystals, 164
Mössbauer, Rudolf Ludwig, 97
Mucus, biomimetic materials, 17

Nanotechnology, silica-based, 110
National Curriculum review, *Science for the 21st century*, 2C, 12
National Historic Chemical Landmark, 4C, 90C, 144C
National Qualifications Review, 34C
Neurochemistry, role of metal ions, 68
Neurotransmission, mechanism, 69
Ninhydrin, fingerprint detection, 106
Nitrogen oxides, UK emissions of, 102
Nobel Prize, chemistry, 8C
North of the border, 34C, 61C
Noyori, Ryoji, Nobel prizewinner, 8C
Nuclear power, 117C
Nylon, 44

Oestrogenic chemicals, 124
Olympiad competition, 117C
Open system chemical reactions, students' misconceptions, 91C
OUTV guide, 24
OUTV, past and present, 22

Pesticides, source of xenoestrogens, 126
pH indicators, 21
Phenolphthalein, 21, 40, 93L, 150L
Pheromones, 95
Photosynthesis, 54
Physical change, concept of, 39L, 122L
Physical chemistry, examples for teaching mathematics, 79
Plagiarism, strategies to combat, 81
Plant carbohydrates, source of chemicals, 130
Plant–insect interactions, 95
Plastics, from rubber, 18
Polypropene, discovery of, 146
Polyhydroxyalkanoic acids, biosynthesis of, 162
Polylactic acid, production of, 130
Polymer chemistry, synthetic fibres, 44
Postdocs, working in schools, 3C, 86C, 114C
Practical activities, safety issues, 32C, 88C
Problem-solving, effective strategy for, 137
Prontosil, antibacterial, 73
Protein plaques, detection of, 164
Pyruvate, fermentation, 160

QCA, review of National Curriculum science, 2C, 12

Rates of reaction, teaching of, 94
Renewable resources, chemicals source, 129
Research Assessment Exercise, 30C, 61C, 93L
Roberts' report, supply of researchers, 3C, 86C, 114C
Royal Gunpowder Mills, National Historic Chemical Landmark award winner, 90C
RSC, Chemistry Week, 4C
RSC, Exemplarchem awards, 7C
RSC, legislation on practical chemistry, 88C
RSC, Industry Study Tour, 116C
RSC, Olympiad team, 117C
RSC, Parliamentary Links Day, 117C
RSC, questionnaire on degree-entry requirements, 31C
RSC, response to green paper, 59C
RSC, response to Centre of Excellence for Science Teaching, 60C
RSC, response to Roberts' report, 86C
RSC, review of MChem provision, 115C
RSC, Top of the Bench winners, 87C
RSC, Undergraduate Skills Record, 6C, 146C
Rubber, vulcanisation, 19

Salters' advanced chemistry, 38L
Salters' Chemistry Teacher, 2001, 3C
Science education from 14–19, Select Committee report, 114C
Science for the 21st century, 2C, 12C, 58C, 114C
Science learning, via the Internet, 81
Science researchers, supply of, 3C, 86C, 114C
Science, National Curriculum, 2C
Scottish Credit and Qualifications Framework, 34C
Sharpless, Barry, Nobel prizewinner, 8C
Software reviews
  Chemical changes, 138
  Investigating science 1, 165
  Spotlight science 7 revised, 111
  The science of materials, 82
Sol–gel chemistry, 108
Solid phase synthesis, 50
Solvents chemistry, 41
Soundbite molecules, 10C, 35C, 62C, 89C, 118C, 145
Specialist Schools Programme, 114C
Spectroscopy, Mössbauer, 97
Spectroscopy, teaching of, 71, 152
Spending Review, funding Roberts' report, 114C
Spectroscopy, measurements in space, 152
Spider silk, biomimetic materials, 16
Steroids, soundbite, 62C
Student misconceptions, core charge, 56
Students' science thinking, 25
Sulphur dioxide, UK emission of, 102
Sulphur, role in vulcanisation, 19
Superheated water, clean solvent, 42
Supramolecular chemistry, 15
Survey of Nuffield A-level chemistry, 76
Synthetic fibres, 43

Teaching chemistry, 50, 112, 128
Teaching chemistry, A-level, 11L, 76
Teaching mathematics for chemistry, 79, 122L
Tornado titration, demonstration, 40
Transition metal chemistry, 54, 69
Thermodynamics, teaching of, 67L, 151, 163L

Undergraduate chemistry, A-level requirements, 31C
Undergraduate experiment, ether synthesis, 49
Undergraduate experiment, microwave synthesis of aspirin, 135
Undergraduate experiment, sol–gel synthesis of inorganic solids, 107
Undergraduate practical course, solid phase chemistry, 50
University of York Science Education Group, *Science for the 21st century*, 12

Vegetable oil, renewable resource, 129
Victorium, 168
Viscose rayon, manufacture of, 43
Vocational GCSE science, 33C
Vulcanite, Ebonite, 19

Web watch, 37C, 66C, 92C, 120C, 148C
Williamson, Alexander, 47
Woad, 38L
Wool Industries Research Association, National Historic Chemical Landmark award winner, 4C

Xenostrogens, impact on environment, 126

Zirconium dioxide, sol–gel synthesis of, 108
Zone refining, 11L, 67L
Zyban, soundbite, 35C

Key C – Column; L – Letter to the editor
